

MANY SIGNATURES . . . Holding some of the petitions for reapportionment of the state senate are three of the workers who helped to collect nearly 600,000 signatures to put the proposal on the November ballot. The plan would enlarge senate membership and give more representation to larger counties.

600,000 Signatures Obtained

An all-time record for California, and probably for the United States, will be set this morning with a statewide total of nearly 600,000 signatures obtained in the 60-day "crash" campaign to qualify the Senate reapportionment constitutional amendment for the November ballot, according to Supervisor Frank Bonelli.

This is an average of 10,000 signatures per day, since the campaign was launched on April 19 with the ceremonial signing of the first petition by Supervisor Bonelli of Los An-

geles County, initiator of the measure; Los Angeles Mayor Samuel W. Yorty; and high-ranking representatives of both major parties, labor and management.

THE FINAL filing was slated at 10 a.m. today by Supervisor Bonelli with L.A. County Registrar Benjamin S. Hite of more than 50,000 additional names. Earlier this week some 30,000 signatures were filed in other counties, the greatest number in Orange, San Diego, Santa Clara and San Francisco.

Certification of signatures on previous filings made on May 24, May 28 and June 4 in 11 California counties came close to the 420,462 minimum required for submission of the initiative measure to the voters on November 6. Qualification for the ballot is more than assured by the additional filings.

A GOAL of 575,000 signatures throughout the state had been set by the Senate Reapportionment Committee, to allow for the usual 25 per cent

loss in validations due to technical errors in signing. Validations, however, have averaged a high 80 per cent — an unprecedented low loss of only 20 per cent invalidated. Final certification of additional signatures will be made to the Secretary of State on June 28. "The active and wholehearted cooperation of civic officials, chambers of commerce, organized labor, leaders of both major parties, and thousands of public-spirited citizens who circulated the petitions, has made possible this record-breaking achievement," Supervisor Bonelli declared.

PHOTO DAY SCHEDULED

At least 30 lovely female models, plus character models and sophisticated sets will be featured when two sponsoring organizations hold their second annual Gardena Photo Day July 22 at 11 a.m. at Recreation Park, 158th and Normandie.

The Gardena Valley Camera Club and the City of Gardena Recreation and Parks Department have scheduled the Southern California Photofest from 1 p.m. to 4 p.m. this year.

Gerald Bethel, photo day general chairman, said a photo contest would be held about one month from photo day. Bethel said the photo day committee, in charge of photofest arrangements, will spend \$300 on prizes in four categories. He said novice and expert categories in both a color slide and black and white division would be instituted for the contest.

A wrong motive involves defeat.—Mary Baker Eddy

... Capsule

(Continued from Page 28) orbit first was no longer of importance.

One gentleman in a straw sombrero gazed admiringly at the U. S. craft.

"And how many did the Russians kill before they brought a man back?" he said. "Our side does not make secrets. And we do not send men into space until we KNOW they will return."

He was very positive and Mexico agrees. Safe and Sure has become the thought of the day.

Overnight, stores broke out a mass of toy rockets that are Safe and Sure for junior. The white capsule that blasts off the rocket is a replica of Friendship VII. There are heavy sales.

Everybody from the lollipop set to government ministers is space-minded these days and very proud.

"Guaymas is a great station

in the Mercury Project," the Mexicans tell you. "From Guaymas, we talked with Juan Glenn when he went around the world. And we helped bring our man back safely."

JOSE CAN YOU SEE BY THE DAWN'S EARLY LIGHT?

WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

If you visit Disneyland this summer, you may have a hard time deciding what you enjoyed most. I've been pleased that a number of people have told me how much they liked the Bell System exhibit featuring the Circarama film "America the Beautiful." It's an amazing movie unlike any you've ever seen.

This 360-degree color movie—an exclusive Walt Disney process—takes you on a breath-taking tour of the United States. You can also see how communications link America together

... the newest telephone products and services... and an exhibit showing how phone calls and TV programs might be transmitted by satellite. Admission's free to "America the Beautiful." We're sure you'll enjoy it too.

You might be interested to know that the tax on your phone bill may be lower after July 1st, if Congress votes to drop the 10% Federal Excise Tax you now pay on local phone service.

This is the 20-year-old wartime "luxury tax" imposed on items like furs, jewelry, perfume—and telephones. Well, I'm sure no one considers his telephone a luxury any more than other necessities like gas and electricity.

And, repealing this tax would mean direct savings to you by lowering the cost of local phone service by the full amount of the tax.

THE 3 C'S OF SAFE DRIVING

With vacation trips and extra summer driving coming up, it's a good time to remind ourselves of the 3 C's of safe driving. These are the principles on which the telephone company's defensive driving program is based. They are:

CONCENTRATION—The safe operation of a car takes place in the minds of individual drivers, concentration on the job of driving a vehicle safely, always being alert to everyone and everything on the road.

CONTROL—A properly maintained vehicle in good mechanical condition and a driver in good physical and emotional health are the requirements for proper control in driving smoothly and safely.

COURTESY—By applying the Golden Rule to driving, we can all share the streets and highways more pleasantly and safely.
